Date approved for issue: _____		

All concrete shall be a minimum of four (4) inches thick throughout (aprons and sidewalk across driveways are 6" or 8") and shall be placed on a four (4) inch compacted sand or aggregate base. Where the underlying soils have been disturbed in the past twenty-four (24) months, compaction tests, borings and/or reinforcement may be required. Concrete shall have a minimum compressive strength, at twenty-eight (28) days, of three thousand two hundred (3,200) pounds per square inch.

DESCRIPTION OF WORK: _____

PLAN REVIEW: A grading plan shall be provided for all new concrete placement clearly showing the existing and proposed grading and drainage. The Building Official may waive this requirement when, in his opinion, it can be demonstrated that adequate drainage exists on the site. A grading plan may be required for replacement work if there is evidence of current or previous drainage problems on the site. A site plan showing the dimensioned location of all concrete must be attached.

REQUIRED PLAN ATTACHED? NO YES

AFFIDAVIT: I hereby certify that I have obtained, read, understand and will comply with all the requirements in the City's "Sidewalks, Driveways and Flatwork" handout and the requirements listed above and that concrete will not be poured until it has been inspected and approved by the Inspector. I also understand it is my responsibility to arrange for necessary inspections with 24 hour's notice.
