

STEPS TO GET INVOLVED

Thank you for your interest in Highland Park Project Blue Light! Below is a list of the steps that it takes to get involved in the program.

Step 1: Fill out an application. In the application, you will choose your camera installer, your light vendor, and your sign vendor. After you complete your application, Project Blue Light staff will send you a confirmation email and connect you with the vendors you selected.

Step 2: A representative from the Highland Park Police Department will meet with you and your camera installer to conduct a site survey, detailing where cameras should be installed.

Step 3: Camera installation is completed. At this time, you should be scheduling an installation date with the sign and light vendors.

Step 4: A representative from the Highland Park Police Department will conduct a post-installation audit and ensure that the installation meets the requirements of the program. They connect the cameras from the business to the Highland Park Police Department.

Step 5: Congratulations! You are now a live Project Blue Light participant!
